-  Inexpensive solution
-  Large selection of colours
-  V2A design and deep-freeze up to -40 °C
-  Wear and maintenance-free bearings
-  90° magnetic hold-open device

DOOR LEAF VERSIONS

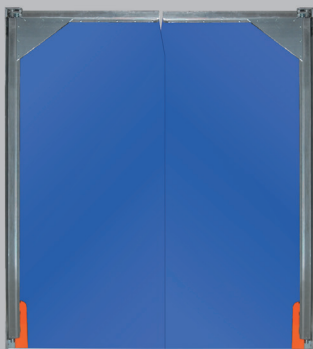

SIMPLE & PRACTICAL SOLUTION

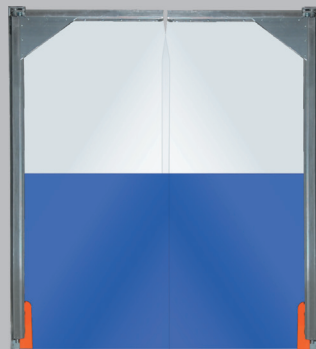

High-quality, corrosion-resistant swing gate for light to heavy mechanical loads.

The swing gate is a manually operated gate for indoor and outdoor use. An integrated spring mechanism closes the door automatically without any effort.

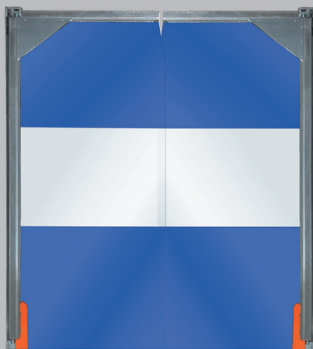

The transparent, highly tear-resistant PVC material makes the transport route safe thanks to the unobstructed view on both sides and ensures good lighting conditions in the working environment.
