

# TRANS- SPEED BS

FAST, LOW NOISE AND FOR  
AREAS WITH STRONG DRAFTS

**ITW**  
INDUSTRIETORE

**TORMAFA**  
Maschinenschutz- und Industrietore

## ADVANTAGES AT A GLANCE

Opening speed up to 2.0 m/s

Door size up to 6.0 m x 6.0 m

Resistance to wind load up to class 3

Permanent curtain tension

Wide range of colors

Atex

V2A

Deep freeze

Fly screen

## SPECIAL FEATURES

# THE ALL-ROUNDER FOR EVERY OPENING

The Transspeed can be used for additional hall closure or as an interior door. The Transspeed is a high-quality solution for any building opening that is passed through very frequently by forklifts or floor vehicles.

Different curtain designs can be used to meet a wide range of requirements. The permanent curtain tensioning system keeps the door leaf under tension at all times during opening and closing.

The optionally available tension spring system for weight compensation rounds off the system and offers fast emergency opening (Transspeed BSGA/GA).

Anti-Crash-System

Curtain tension

Light grid

Bale and  
drive cover

## TECHNICAL DATA

- Opening speed up to 2.0 m/s
- Closing speed up to 0.8 m/s
- Door sizes up to 6.0 m height and 6.0 m width
- DR2100 microprocessor control system with main switch and integrated frequency converter
- 230 V/50Hz, IP54 Operator
- Required lintel height min. 447 mm
- Curtain available in various colors or fully printed with a motif of your choice

## SAFETY

- Access protection by means of all-round cladding
- Passage monitoring by means of contactless light grid
- Anti-crash function - automatic reset (optional)
- Emergency opening by hand crank or reel chain
- Signal lights and traffic light control (optional)
